Taco Pasta Skillet Recipe

Ingredients

taco seasoning:

2 teaspoons smoked paprika

1 teaspoons Chile powder

1/2 teaspoon cumin

1/2 teaspoon onion powder

1/2 teaspoon coriander

1/2 teaspoon dry mustard

1 corn on cob

6 ounces dry cavatappi pasta

2 tablespoons extra virgin olive oil

1/2 pound lean ground beef

1 small shallot, minced

2 garlic cloves, minced

1/2 cup tomato sauce

1 cup shredded Mexican Blend cheese

salt and pepper to taste

2 roma tomatoes, seeded and diced

2 green onions, thinly sliced

few dollops sour cream

chopped cilantro, optional

chopped avocado, optional

sliced jalapeno, optional

Process

Combine all spices in a small bowl and stir together. Set aside.

Set oven to broil and char corn under broiler on each side for 1 minute. Remove from broiler and slice kernels off cob and set aside (discard cob).

Preheat oven to 375°F.

Fill a large pot with water and place over medium-high heat.

Once water is boiling, add a handful of salt and pasta and boil until al dente, about 7 to 8 minutes, stirring occasionally.

Remove from heat and drain pasta. Set aside.

Place an 8" skillet over medium-high heat and add oil.

Add ground beef and saute for 3 to 4 minutes, breaking up the beef as it cooks. Season with salt and pepper.

Add shallot and garlic and continue to saute for 2 to 3 minutes.

Stir in taco seasoning and stir together. Saute for 2 to 3 minutes. Season with salt and pepper.

Stir tomato sauce into the mixture and reduce heat to medium. Simmer mixture for about 10 minutes adding 2 tablespoons water at a time to mixture, if it begins to get too thick.

Once ground beef mixture has thickened, fold in cooked pasta and charred corn until evenly distributed.

Top pasta skillet with shredded cheese and place in oven for 6 to 8 minutes or until cheese has melted.

Remove from heat and top with diced tomatoes, dollops of sour cream and sliced green onions. Serve.
